3 PARTIES BOUND

This Agreement shall be binding upon:

- (a) Western Power, located at Hawthorn Street, Dubbo, New South Wales; and
- (b) The Federated Municipal and Shire Council Employees' Union of Australia (NSW Division) (MEU) and their officers and members in respect of work done by Head Office members for Western Power in its area of operations.
- (c) The Electrical Trades Union of Australia (NSW Branch) (ETU) and their officers and members in respect of work done by Head Office members for Western Power in its area of operations.
- (d) All employees, present and future, at Hawthorn Street Dubbo Head Office listed in the classifications of the Award, being persons engaged in technical, professional, administrative and clerical occupations other than switchboard operators, cashiers, cashier support and wordprocessing job share positions.

4 DATE AND PERIOD OF OPERATION AND RENEWAL

- (a) This Agreement shall take effect from the beginning of the first pay period commencing on or after the date of this Agreement's registration under the provisions of the Industrial Relations Act, 1991, and shall remain in force until 30 June 1995.

PRH

PRH

- (b) No less than six (6) months prior to the date of expiry of the Agreement, the parties will meet and discuss a renewal of the Agreement including a review of the Performance Measures, forecast movement in the Measures and the amount of future increases if any.

5 RELATIONSHIP TO PARENT AWARDS

This Agreement shall be read and interpreted wholly in conjunction with the following awards (hereinafter called the Award):

- (i) County Councils (Electricity Undertakings New South Wales) Conditions of Employment (State) Award 1992; and
- (ii) County Councils (Electricity Undertakings New South Wales) Classifications and Rates of Pay (State) Award 1992; and

provided that where there is any inconsistency between this Agreement and the Award this Agreement shall take precedence to the extent of the inconsistency and in all other cases the Award shall apply.

6 ANNUAL STAFF REVIEW

Staff classifications and gradings will be reviewed annually. Promotions, accelerated incremental progression, higher gradings and reclassification shall be in accordance with the Award. Employees who, at the commencement of this Agreement, have a written undertaking from Western Power concerning future gradings, shall be graded, at the relevant time, in accordance with the terms of the undertaking.

7 AIM OF AGREEMENT

It is the aim of the parties to this Agreement to implement workplace practices so as to provide for more flexible working arrangements, which will improve efficiency and productivity, enhance skills and job satisfaction and assist positively in ensuring that Western Power becomes a more efficient and productive enterprise.

The parties agree that the aim of this Agreement is to facilitate:

- (a) flexible working hours;
- (b) workplace productivity;
- (c) the development and maintenance of the most productive and harmonious working relationship obtainable.

The parties also agree that the aim of this Agreement will not be limited to the measures set out at subclause 7(a), (b) and (c). The parties further agree that to facilitate the aim of the agreement, all parties to this agreement shall be involved in the decision making process concerning matters relative to the aim

of this agreement. The parties further agree that the aim of this Agreement will be pursued by all parties by ensuring that improved flexible work and management practices are developed and implemented. This process will involve all parties throughout the term of this Agreement.

8 NEW EMPLOYEES

The parties agree that each person from time to time who is employed during the term of this Agreement in a trade or occupation to which the Agreement relates will be covered by the Agreement.

9 AGREEMENT TO BE DISPLAYED

Copies of this Agreement shall be displayed in places readily visible and accessible to all parties covered by the Agreement.

10 CONSULTATIVE COMMITTEE

(a) A consultative committee consisting of two management representatives, one of whom shall be the Assistant General Manager or General Manager, and two union representatives shall be established. This committee shall be a forum for open discussion and shall meet at set quarterly intervals with additional meetings on an as required basis for consultation and negotiation on matters affecting the efficiency and productivity of the enterprise.

(b) It is agreed that it is desirable that a Joint Consultative Committee be established at Western Power to enable parties to each Western Power Enterprise Agreement State or Federal to meet and discuss issues of common interest.

11 BUDGET REVIEW COMMITTEE

The parties to this Agreement agree to co-operate in the election of one employee representative from all Enterprise Agreements at Western Power to represent the Employees of Western Power on Western Power's Budget Review Committee. The first election to take place prior to December 1993 with subsequent annual elections to be held in March of each year thereafter.

12 HOURS OF WORK

(A) Award 35 Hour per week Head Office Staff

(a) The provisions of the Award will apply except that the ordinary hours of work will be thirty eight (38) hours per week.

(b) The additional three hours to be worked in excess of the thirty five hours per week prescribed in the Award shall be worked, as mutually agreed, within the Award prescribed

spread of hours and in accordance with Schedule B of this Agreement.

(c) Schedule B of this agreement details the operation of a nine day fortnight and hours of work that shall operate for the term of the Agreement.

(d) Employees not working a nine day fortnight at the date of this Agreement's registration may continue to work a five day week in accordance with the Award and the ordinary hours of work as set out in (a) above.

(B) Award 38 hour per week Field Based Staff

(i) The provisions of the Award will apply in respect to ordinary hours of work. The ordinary hours of work shall be worked, as mutually agreed, within the Award spread of hours and in accordance with Schedule B of this Agreement.

(ii) Flexible Working Arrangement

It is agreed that employees will participate in a trial flexible working arrangement working as detailed in Schedule B(7) to this Agreement. The trial will commence 21 September 1993 and terminate on 22 March 1994. The parties mutually agree at a meeting of the Joint Consultative Committee to then review flexible working arrangements by 30 April 1994.

(iii) Schedule B of this Agreement details the operation of a nine day fortnight and hours of work that shall operate for the term of the Agreement.

13 ROSTERED DAYS OFF (RDO)

(a) It is agreed that there will be flexibility in the taking of Rostered Days Off subject to no more than three consecutive RDO's being required to be worked. The accrued days to be taken subject to mutual agreement at a later date. An employee can only be required to defer their rostered day on no more than six occasions per financial year.

(b) Provided that minimum customer service levels are maintained as agreed with the General Manager, employees working under this Agreement will be permitted, once per annum, to take a scheduled Rostered Day Off on a mutually agreed common date. The employees proposing a common date for the taking of a scheduled Rostered Day Off will give the General Manager at least six weeks notice of the proposed date.

oooOooo

PART B - REMUNERATION

14 INITIAL WEEKLY BASE RATES OF PAY

The weekly base rates of pay will be those provided by the Award as at the date of this Agreement's registration subject to the following adjustments and rounded to the nearest ten cents:

- (a) The Award weekly base rates of pay at the date of this Agreement's registration will be recalculated by dividing by 35 and multiplying by 38.
- (b) The weekly base rates of pay recalculated in sub-clause (a) above shall be increased by a further 3% in consideration of productivity achievements up to the commencement of this Agreement.
- (c) The weekly base rates of pay recalculated in sub-clauses (a) and (b) above, shall be increased by a further 1.75%. This increase consists of an amount of 1.35% in lieu of annual leave loading in respect of any annual leave attributable to service from the commencement of this Agreement. The increase also consists of an amount of 0.4% in lieu of the employees' picnic day provided by the Award.

An employee may request that the amount equivalent to 1.35% of the employee's weekly base rate of pay be paid directly to a nominated electricity account.

15 PERFORMANCE MEASURES

- (a) The parties to this Agreement recognise that profitability, competitiveness, quality of service, job security and safety are paramount objectives for Western Power and its employees.
- (b) The contribution of the workforce to the achievement of these objectives will be recognised through the implementation of an incentive system which will operate by the measurement of key performance criteria each financial year.
- (c) The key performance criteria which will be measured are listed below and defined in Schedule A:
 - Customer Satisfaction - Domestic
 - Customer Satisfaction - Business
 - Employee Sick Leave
 - Lost Time Accidents
 - Overhead Serviceability Index
 - Controllable Operating Costs per Customer
 - GWh Sales per Employee
 - Reliability Index
 - Net Ancillary Income.

- (d) The Performance Measures are determined as far as practical on a risk/benefit sharing basis commensurate with the employees' ability to influence the Measure. The Measures will be calculated in accordance with Schedule A to this Agreement.
- (e) The above Measures will be reviewed as at 30 September, 31 December and 31 March each year to indicate the projected outcome for the financial year ending 30 June.
- (f) Revised projections in key performance criteria resulting from reviews under subclause (e) of this clause shall be circulated to all employees and the unions party to this Agreement not more than four weeks after the dates in subclause (e).
- (g) The Performance Measures will be calculated in accordance with Schedule A of this Agreement except where an accounting convention or similar change in presentation of financial statements occurs during the currency of the Agreement. In such cases data will be calculated on the same basis to that applying at the time of preparation of the Agreement.
- (h) If there are any further transfers of responsibility for operation and maintenance of assets from Pacific Power or any other authority or organisation the basis for including and calculating costs will be on a present value basis adjusted to a common base of system responsibility. This adjustment will also be carried out for the residual impact of previous asset transfers.
- (i) In the event of external influences including accounting practices, government legislation or economic downturn affecting or influencing the performance measure outcome to the detriment of the employees, both parties agree to review the Performance Measures with the intention of improving the methodology to achieve a fair and equitable result.
- (j) In the event of the overall sum of the Performance Measures returning a negative result in any financial year, both parties agree to review the Performance Measures with the intention of improving the methodology and the measurement of productivity gains.

16 QUANTUM OF PERFORMANCE MEASURE BASED PAY INCREASES

- (a) The quantum of any pay increase will be expressed as a percentage of the weekly base rates of pay at the time of review and will be derived from the sum of the individual Performance Measures calculated in accordance with Clause 15 and Schedule A of this Agreement.
- (b) In the event that the sum of the performance measures returns a negative result in any one financial year the result will be considered equal to zero for all purposes and clauses within this agreement.

17 **PAY ADJUSTMENTS - OPERATIVE DATES**

- (a) The 3% increase referred to in Clause 14(b) of this Agreement, shall be calculated for the period 1 July, 1993 to the date of commencement of this Agreement, on the Award weekly base rates of pay applying from 1 July 1993 to the date of commencement of this Agreement, and will be paid within four (4) weeks of the commencement of this Agreement.
- (b) Weekly base rates of pay as calculated in accordance with Clause 14 will be adjusted with effect from the registration of the Agreement.
- (c) Adjustments in accordance with Clauses 16 and 18 will be calculated as at each 1 July. The percentage adjustment will be used to create new weekly base rates of pay to apply from the first pay period commencing on or after the respective 1 July.
- (d) Following each pay adjustment an updated list of weekly base rates of pay for all classifications or positions covered by this Agreement will be provided to the Consultative Committee members.

18 **WAGE CASES & ESCALATION**

- (a) If, during the term of this Agreement, the Industrial Relations Commission hands down a National Wage Case Decision which increases rates of pay, the rates of pay calculated under this Agreement shall not be adjusted other than as provided in subclause (b) of this Clause.
- (b) In the event that an Award equivalent hourly base rate of pay exceeds the corresponding adjusted equivalent hourly base rate of pay under this Agreement, the Award equivalent hourly base rate will apply and continue until such time as the Agreement is terminated or is exceeded by any future performance measure based adjustment.
- (c) As at each 1 July the performance measure adjustment to apply for the ensuing year in accordance with Clause 17(c) will be varied such that the sum of the performance measure adjustments from 1 July 1993 up to and including the current adjustment will not be less than the sum of the Consumer Price Index Weighted Average All Capital Cities less 1% (CPI - 1%) per annum for the same period.

oooOooo

PRH

PRH

PART C - LEAVE

19 PRESERVATION OF EXISTING LEAVE ENTITLEMENTS

Entitlements to Sick Leave, Annual Leave and Long Service Leave will be preserved in hours on the commencement of this Agreement and shall where taken during the term of this Agreement, be taken in hours.

20 RATES OF PAY FOR LEAVE ENTITLEMENTS

Rates of Pay for Leave Entitlements will be the equivalent hourly rate of pay as calculated from the weekly base rate of pay in accordance with this Agreement.

21 ANNUAL LEAVE

- (a) The provisions of the Award as at the date of registration of this Agreement will continue to apply except that Annual Leave Loading will not be paid, Leave Loading having been incorporated into the weekly base rates of pay.
- (b) On commencement of the Agreement the monetary equivalent of accrued Annual Leave Loading at that date will be paid.

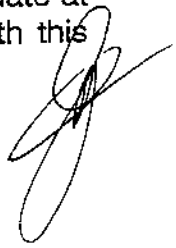

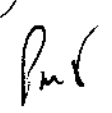

22 SICK LEAVE

Subject to Section 99A of the Industrial Relations Act 1991, the provisions of the Award as at the date of registration of this Agreement will continue to apply.

23 LONG SERVICE LEAVE

The provisions of the Award as at the date of registration of this Agreement will continue to apply except that where an entitlement of Long Service Leave becomes due during the term of the Agreement, half the difference between the entitlement then due and the pro-rata balance at the commencement of the Agreement will be taken before the next entitlement becomes due provided that an employee will not be required to reduce their entitlement to less than 13 weeks. If necessary to comply with this Clause, a period of Long Service Leave of less than one week will be approved.

Employees will be notified no less than six months in advance of the date at which an amount of Long Service Leave must be taken to comply with this clause.

PRH 
Paul 

24 **SPECIAL LEAVE**

Employees will be entitled to Special Leave in the following circumstances:

- (a) **Jury Service:** An employee shall be entitled to special leave without pay to attend for Jury Service provided that the employer shall pay the employee the difference between the Jury Service attendance fee and the employee's usual rate of pay for each day.
- (b) **Funeral Service:** Employees shall, subject to the General Manager's approval, be entitled to Special Leave without loss of pay to attend the funeral of a fellow employee.
- (c) **Other Leave:** Subject to no other leave entitlements being available and subject to the General Manager's approval, an employee may be granted Special Leave without loss of pay to attend to urgent family matters.

oooOooo

P.R.H. 
Paul

PART D - GENERAL

25 PUBLIC HOLIDAYS

The Award holiday provisions will continue to apply. However, the Award holiday provisions concerning the employees' picnic day shall not apply.

26 REDUCTION IN STAFF NUMBERS

- (a) The Head Office staff establishment will be reduced by a maximum of four positions during the term of the Agreement by natural attrition or voluntary redundancy as a result of the conversion to a 38 hour week, the aim being to reduce the approved 1993/94 Head Office staffing establishment of 69 by three positions in the first year of the Agreement and one in the second year of the Agreement. The 69 positions referred to in this clause are listed in Schedule C of this Agreement.
- (b) Where possible the staff reduction numbers detailed in (a) above will be adjusted down as potential business development opportunities result in growth of the business.

27 UNIFORMS - HEAD OFFICE STAFF

- (a) Western Power will supply each employee (including new employees) with compulsory uniforms to the value of \$500 in the first year of the Agreement and/or the first year of employment and \$250 in each subsequent year of employment. Uniform requirements by an employee in excess of the employee's current uniform account balance will be at the employee's expense. The value of any balance not taken by the employee in any year will be credited to the employee's uniform account for use in subsequent years.
- (b) All matters concerning uniforms including design, issue and wearing will be the subject of a Uniform Policy mutually agreed to by the parties.
- (c) The value of the uniforms referred to in sub-clause (a) of this clause will be adjusted annually to reflect movement in the Consumer Price Index Weighted Average All Capital Cities.

28 BUSINESS DEVELOPMENT

It is agreed that during the term of the Agreement the parties will in good faith investigate the undertaking of additional business development activities. In lieu of overtime payments development of a mechanism for payment of a commission or profit sharing may be considered as part of this Clause.

29 **USE OF CONTRACTORS**

It is agreed that the Unions will be consulted prior to calling of tenders and also the awarding of contracts for work normally undertaken by Western Power day labour. It should be noted however that this Clause does not indicate the Unions endorsement of the use of contractors at the expense of day labour. This clause does not preclude Western Power from engaging contractors.

30 **TRAINING**

It is agreed that the provisions of the Award will continue to apply except that relocated staff will be retrained for their duties to a standard acceptable to the Consultative Committee and will be given the highest priority in allocation of the budgeted provision for training.

31 **REDUNDANCY**

No forced redundancies will occur for any reason prior to the termination of this Agreement. If voluntary redundancies are offered the package outlined in Schedule D of this Agreement will apply or the State Government Redundancy Policy whichever is the more attractive offer.

32 **RELOCATED EMPLOYEES**

Any employee relocated to alternative work will be designated as a Relocated Employee at their existing classification and rate of pay if relocated to a position with a lower rate of pay. For the purposes of this Clause a Relocated Employee will retain their existing classification and rate of pay and receive adjustments in rates of pay pursuant to this Agreement. No relocated employee will be transferred to another depot unless conditions for the proposed transfer have been mutually agreed to.

33 **SETTLEMENT OF GRIEVANCES AND DISPUTES**

A grievance is defined as a dispute, difference, disagreement, problem or complaint between the parties on matters related to wages, hours, discrimination, safety and defined conditions of employment, or any local understanding, agreement, work practice or matters relating to this Agreement.

A grievance, as defined, shall be dealt with as follows:

- (a) The employee shall take the matter to the employee's immediate supervisor who shall investigate the problem and after consultation with the Branch Manager or Director, make a decision and convey it to the employee concerned within five (5) working days.
- (b) If, as a result of (a), the matter is still unresolved, the employee shall notify the employee's immediate supervisor to that effect. At this stage, the grievance must be committed to writing within five (5) working days. This requirement may be dispensed with where a joint statement is made and signed by both the grievant and the employee's immediate supervisor.

- (c) On receipt of the written grievance, a conference with the General Manager or if absent the Assistant General Manager, to discuss the matter shall be arranged within ten (10) working days. At such conference, a written report must be furnished to all parties by the immediate supervisor in (a) together with the written grievance. The employee may be self represented and/or represented by shop steward(s) and/or Union official(s).
- (d) If the matter is still unresolved the Employer must notify a mutually agreed arbitrator within ten (10) working days and furnish a written report on proceedings to that stage together with copies of the written grievance and supervisor's report for determination.
- (e) A party to this Agreement, may after the conclusion of part (c) of this clause, or where the grievance procedure has been complied with where reasonably practicable, refer any grievance as defined in this clause, to the New South Wales Industrial Relations Commission for conciliation and failing resolution by conciliation, for arbitration.
- (f) The status quo that existed prior to the circumstances that brought about the dispute, shall be maintained by all concerned and without prejudice to any party until such time as the grievance is resolved or determined by arbitration.
- (g) The parties to this Agreement agree to abide by any arbitrated decision.

34 **NO EXTRA CLAIMS**

No extra claims for wage, salary or allowance increases will be made during the term of this Agreement nor will any variations be sought by Western Power except where a significant change to work value occurs or new technology is introduced at which time all parties reserve the right to negotiate in good faith an amendment to this Agreement.

35 **TERMINATION OF AGREEMENT**

In the event that either party applies for and is granted termination of this Agreement prior to a new agreement being registered with the New South Wales Industrial Relations Commission, a pro-rata lump sum performance payment excluding any amount derived from Clause 18(c) will be made prior to termination of this Agreement equal to the additional salary in excess of the Award rates which would have been paid had the Agreement continued for a further twelve months from the termination date. The parties to this Agreement agree to waive this right in exchange for the prevailing rates of pay and any performance adjustments, pro-rata or due, being the commencing rates of pay for the new agreement with all conditions of employment continuing in the new agreement unless mutually agreed otherwise.

oooOooo

P.R.H. 
Paul

PART E - DECLARATION AND SIGNATORIES

36 DECLARATION

This Enterprise Agreement has been negotiated through extensive consultation between management and employees. The content of the agreement has been canvassed with all parties. All parties are entering into this Agreement with full knowledge as to the content and effect of the document.

The parties declare that this Agreement:

- (a) Reflects the interests and desires of the parties; and
- (b) Was at no stage entered into under duress.

37 SIGNATORIES

This Agreement is made at Dubbo on this the 6th day of December 1993

Signed for and on Behalf of
Western Power

P. Halysuta

In the presence of:

J. Adams

Signed for and on Behalf of Members
of the Federated Municipal and Shire
Council Employees' Union of
Australia (NSW Division)

John J. Newcomb
A circular seal with the text "Federated Municipal and Shire Council Employees' Union of Australia (NSW Division)" around the perimeter. Inside the seal, it says "Pursuant to the Industrial Relations Act 1987" and "Seal". There is a star at the bottom of the seal.

Australia (NSW Branch)

B. Riordan
An oval seal with the text "ELECTRICAL TRADES UNION OF AUSTRALIA" around the perimeter. Inside the seal, it says "NEW SOUTH WALES BRANCH".

In the presence of:

SCHEDULE A

PERFORMANCE MEASURES

1 SCOPE

This schedule defines the performance measures and their application to adjustment of the weekly base rates of pay as detailed in Clauses 15, 16 and 17 of this Agreement.

2 TIMING

Adjustments to the weekly base rate of pay resulting from the performance measures shall be applied in accordance with Clause 17 of this Agreement.

3 CALCULATING THE PERFORMANCE PAY INCREASES

The Performance Measure Based Pay Increases shall be calculated by summing the results of each Performance Measure variation factor for the year under review determined on a pro rata basis, where appropriate, and as detailed in Item 4 of this Schedule and applying the result as a percentage variation to the weekly base rate of pay. Variation formulas have been included only to indicate the methodology used to derive the Variation Factor. In all cases the Variation Factor is set for the duration of this Agreement as summarised in Item 5 of this schedule. In the event that summing the results of the performance measures returns a negative result the result will be taken to equal zero for the purposes of applying all Clauses of this Agreement.

4 PERFORMANCE MEASURES

4.1 Customer Satisfaction - Domestic

Measure Definition

This indicator is the measure of Western Power's ranking in an independent survey of all New South Wales Electricity Distribution Authorities domestic and rural customers.

Measure Aim

The aim of the measure is to focus the attention of staff towards providing prompt, courteous and sound customer service. It also works as a moderator to ensure that staff do not let customer service standards deteriorate while trying to reduce operating costs.

Benefits for Western Power

The employees will be motivated to provide prompt, courteous and sound customer service. Another benefit is an improvement in the image of Western Power.

Basis for Costing

Western Power recognises an advantage to the community of being highly ranked relative to other distribution authorities in the State.

Variation Factor

The variation factor will be:

- +0.2% salary variation for ranking in the top 4
- -0.2% salary variation for ranking in the bottom 4, and
- pro-rata salary variation for any ranking in between

4.2 Customer Satisfaction - Business

Measure Definition

This indicator is the measure of Western Power's ranking in an independent survey of all New South Wales Electricity Distribution Authorities commercial and industrial customers.

Measure Aim

The aim of the measure is to focus the attention of staff towards providing prompt, courteous and sound customer service. It also works as a moderator to ensure that staff do not let customer service standards slide while trying to reduce operating costs.

Benefits for Western Power

The employees will be motivated to provide prompt, courteous and sound customer service. Another benefit is an improvement in the image of Western Power.

Basis for Costing

Western Power recognises an advantage to the community of being highly ranked relative to other distribution authorities in the State.

Variation Factor

A variation of 1 hour per employee per year will result in a salary variation of 0.05%.

4.4 Lost Time Accidents

Measure Definition

This indicator is the lost time (hours) per employee per year due to accidents calculated on a 3 year rolling average excluding non-injury accidents. Lost Time shall not include any time spent by an injured employee undertaking work at Western Power under a rehabilitation programme.

Measure Aim

To focus the attention of staff on the cost of workplace accidents with the intention being to reduce the total lost time.

Benefits to Western Power

By minimising this type of lost time employees are available to carry out the work at hand which otherwise would not be completed. There is a saving resulting from minimising the disruptions to crew manning levels. The most significant advantage however is the potential to reduce workers compensation insurance and accident investigation costs.

Basis for Costing

It has been calculated such that any variation in lost time impacts on the total staff salary by an amount equal to the total work hour variation multiplied by the average hourly rate.

Variation Formula

$$VF = \left[\frac{(LTA_1 - LTA_2) \times ASN \times AHR}{SB_1} \right] \times \frac{100}{1}$$

Where:	<u>Units</u>
VF = Salary Variation Factor	%
LTA ₁ = Lost time accidents per employee for the previous year	hrs
LTA ₂ = Lost time accidents per employee for the year under review	hrs
ASN = Average Staff Numbers for the year under review	
AHR = Average Employee Hourly Rate for the previous year in accordance with Appendix A of this Schedule	\$
SB ₁ = Staff Budget for previous year calculated in accordance with Appendix A of this Schedule	\$

Variation Factor

A variation of 1 hour per employee per year will result in a salary variation of .05%.

4.5 Overhead Serviceability Index

Measure Definition

This index measures the number of outstanding system defects as defined in Appendix D of this Schedule and the time taken to rectify them.

Measure Aim

To ensure that whilst employees are striving to reduce the operating cost per customer that the serviceability of the network is maintained.

Benefits to Western Power

Fault and Emergency costs are approximately \$1,000,000 per annum. By improving the serviceability of the system the Fault and Emergency costs will be reduced.

Customer satisfaction will also be improved as forced outages will be minimised. The reduction in forced outages will have a community economic benefit as unsupplied kWh's will be reduced.

Basis for Costing

It is difficult to accurately assess the benefits to Western Power in monetary terms. It is assumed that a 1% variation in the index will result in a 5% variation in Fault and Emergency costs. The benefit/risk share is then calculated as 33⅓% of the estimated variation in the Fault and Emergency Costs.

Variation Formula

$$VF = \frac{\left[\frac{(OSI_2 - OSI_1) \times 5}{100} \times FEC \times \frac{1}{3} \right]}{SB_1} \times \frac{100}{1}$$

Where:

		<u>Units</u>
VF	= Variation Factor	%
OSI ₁	= Overhead Serviceability Index for the previous year	%
OSI ₂	= Overhead Serviceability Index for the year under review	%
FEC	= Fault and Emergency Costs from previous year	\$
SB ₁	= Staff Budget for previous year calculated in accordance with Appendix A of this Schedule	\$

Variation Factor

A 1% variation in the measure will result in a salary variation of 0.26%.

4.6 Controllable Operating Costs per Customer

Measure Definition

This indicator measures the controllable operating cost per customer excluding;

- Interest
- Depreciation
- Tariff Incentives
- Promotional Rebates
- Public Liability Insurance Premiums
- Research and Development

Appendix D shows the measures definition in detail and Appendix B normalises the operating costs indexed to a common base to enable relativity in comparing variations in performance.

Measure Aim

The aim of the indicator is to measure reductions in the relative operating cost per customer.

Benefits to Western Power

The employees will become more focused on improving efficiency and reducing expenditure with the result being a reduction in relative operating costs and hence a containment of tariffs.

Basis for Costing

The employees share will be 33⅓% of the variation in controllable operating costs per customer multiplied by the average number of customers in the second year divided by the total normal time staff budget of the previous financial year to determine a percentage variation factor.

Variation Formula

$$VF = \frac{(BOCCE - COCCE) \times \left[\frac{(C_1 + C_2)}{2} \right] \times \frac{1}{3}}{SB_1} \times \frac{100}{1}$$

Where:

Units

VF = Variation Factor

%

Western Power - Head Office Employees (State) Enterprise Agreement
SCHEDULE A

BOCCE	=	Base Operating Cost per Customer excluding Interest, Depreciation, Tariff Incentives, Promotional Rebates, Public Liability Insurance and Research and Development for the previous year in accordance with Appendix B of this Schedule	\$
COCCE	=	Controllable Operating Cost per Customer excluding Interest, Depreciation, Tariff Incentives, Promotional Rebates, Public Liability Insurance and Research and Development for the year under review	\$
C_1	=	Total number of customers at the beginning of the year under review	
C_2	=	Total number of customers at the end of the year under review	
SB_1	=	Staff Budget for previous year calculated in accordance with Appendix A of this Schedule	\$

Variation Factor

A variation of \$5.00 between the Base Operating Costs per Customer (BOCCE) of the previous year and the Controllable Operating Costs per Customer (COCCE) for the year under review will result in a 0.9% variation in salary.

4.7 GWh Sales per Employee

Measure Definition

This indicator measures the GWh sales per year per employee. A three year rolling average is used to even out climatic variations in heating, cooling and irrigation sales.

Measure Aim

The aim of the indicator is to promote sales growth which will improve operating efficiency and utilisation of assets.

Basis for Costing

The employees will receive a 10% share of the gross margin on increased sales, based on a three year rolling result.

Variation Formula

$$VF = \frac{\left[(GWh_2 - GWh_1) \times ASN \times \$GWh_s \times \frac{1}{10} \right]}{SB_1} \times \frac{100}{1}$$

Where:		<u>Units</u>
VF	= Variation Factor	%
GWh_1	= An average of GWh sales per employee (ASN) for the previous year and each of the two years prior to it	GWh
GWh_2	= An average of GWh sales per employee (ASN) for the year under review and each of the two years prior to it.	GWh

SB₁ = Staff Budget for previous year calculated in accordance with Appendix A of this Schedule \$
ASN = Average Staff Numbers for the year under review

and

$\$GWh_s = \text{Average gross margin in } \$/GWh = \frac{\$Sales - \$Purchases}{GWh \text{ Sold}}$

Variation Factor

A variation of 0.01 GWh in GWh sales per employee will result in a salary variation of 0.13%.

4.8 Reliability Index

Measure Definition

The indicator measures the minutes outage per customer per year as defined in Appendix D of this Schedule calculated on a three year rolling average excluding major storms.

Measure Aim

To provide incentive to reduce the outage time per customer per year.

Benefits to Western Power

The staff whilst striving for a reduction in operating costs will need to keep the network adequately maintained in order to reduce customer outage time, hence a balancing effect. Co-ordination of work will be encouraged to enable multiple jobs to be carried out on single outages.

The community will receive an economic benefit due to a reduction in outage time.

Basis for Costing

It is assumed that the Fault and Emergency costs will be reduced by a relative amount to the reduction in outage times. In lieu of no accurate data being available the present outage time per customer per year is provisionally assumed to be 350 minutes and Fault and Emergency costs of \$956,000 as per the 1993/94 budget.

A reduction of 10 minutes per customer per year results in savings of

$$\frac{10}{350} \times \$956,000 = \$27,314$$

Gross margin on unsupplied kWh's for 10 minutes would be

$$\frac{\left[\frac{10}{60} \times 113MW \times .65LF \right]}{1000} \times 2.87¢\text{margin/unit} = \$351$$

Total Savings:	Gross Margin	\$ 351
	Fault & Emergency	<u>\$27,314</u>
		\$27,665

The benefit/risk share is calculated as 33⅓% of the estimated variation in Fault and Emergency costs plus 33⅓% of the variation in Gross Margin.

Variation Formula

$$VF = \frac{\frac{1}{3} \times \left[\frac{(MOCY_1 - MOCY_2)}{MOCY_1} \times FEC + GM \right]}{SB_1} \times \frac{100}{1}$$

Where:	<u>Units</u>
VF = Variation Factor	%
MOCY ₁ = Minutes Outage per Customer per year for the previous year	Minutes
MOCY ₂ = Minutes Outage per Customer per year for the year under review	Minutes
FEC = Fault and Emergency Costs from previous year	\$
GM = Variation in Gross Margin attributable to reliability	\$
SB ₁ = Staff Budget for previous year calculated in accordance with Appendix A of this Schedule	\$

Variation Factor

A 10 minute variation in the three year rolling average outage time per customer will result in a 0.15% salary variation.

4.9 Net Ancillary Income

Measure Definition

Net Ancillary Income includes

- Appliance Sales
- Customer Servicing
- Recoverable Works
- Sale of written off non book asset items

Net Ancillary income excludes

- Interest
- Depreciation

Measure Aim

To encourage staff to "Grow the Business" to increase the revenue base of Western Power while minimising tariffs.

Benefits to Western Power

It is believed that the share of profit will motivate staff towards Business Development which would not have otherwise occurred resulting in development of profit making activities and transfer of costs from core to ancillary activities.

Basis of Costing

33⅓% of the variation in net ancillary income from the previous year to the year under review to be paid by way of a salary increase. The measure cannot return a negative result, the minimum result being zero.

Variation Formula

$$VF = \frac{(NAI_2 - NAI_1) \times \frac{1}{3}}{SB_1} \times \frac{100}{1}$$

Where:

		<u>Units</u>	
VF	=	Variation Factor	%
NAI ₁	=	Net Ancillary Income for the previous year	\$
NAI ₂	=	Net Ancillary Income for the year under review	\$
SB ₁	=	Staff Budget for previous year calculated in accordance with Appendix A of this Schedule	\$

Variation Factor

A \$20,000 variation in the measure will result in a salary variation of 0.11%.

**Western Power - Head Office Employees (State) Enterprise Agreement
SCHEDULE A**

Adjustments Required

<u>Item</u>	<u>Base 1992/93 Year</u> <u>(\$93/94)</u>
Net Ancillary Income	55,000
½ work year adjustment ⁽¹⁾	<u>(24,000)</u>
Base 1992/93 Year	\$31,000

Notes: (1) ½ work year adjustment required due to transfer of marketing wages to ancillary activities.

- 92/93 Budget ½ work year
- 93/94 Budget 1 work year

5 Summary of Actual Variation Factors

Measure	Units	Salary Variation Factor
1 Customer Satisfaction - Domestic	Ranking	<ul style="list-style-type: none"> • +0.2% for ranking in top 4 • - 0.2% for ranking in bottom 4 • pro-rata for any ranking in between
2 Customer Satisfaction - Business	Ranking	<ul style="list-style-type: none"> • +0.2% for ranking in top 4 • - 0.2% for ranking in bottom 4 • pro-rata for any ranking in between
3 Sick Leave	Hours	± 0.05% per hour variation
4 Lost Time Accidents	Hours	± 0.05% per hour variation
5 Overhead Serviceability Index	%	± 0.26% per 1% variation in index
6 Controllable Operating Costs per Customer	\$	± 0.9% per \$5 variation
7 GWh Sales per Employee	GWh	± 0.13% per 0.01 GWh/Employee variation
8 Reliability	Minutes	± 0.15% per 10 minutes variation
9 Net Ancillary Income	\$	0.11% per \$20,000 variation

APPENDIX A - STAFF BUDGET

The Staff Budget (SB₁) used in the variation formulas of Schedule A is to be calculated as detailed below. The Staff Budget for the year 1992/93 is as shown below:

Total Ordinary Time (TOT)	6,399,336	
Less employees on contract (LEOC)	<u>265,000</u>	GM, AGM, DOE, DF
Staff Budget (SB ₁)	\$6,134,336	
Average Staff Numbers (ASN)	= 235.2	employee equivalents

$$\text{Average Wage} = \frac{6,134,336}{235.2} = \$26,081 \text{ pa}$$

Average Hourly Rate (AHR)

$$\text{AHR} = \frac{6,134,336}{460,490} = \$13.32/\text{hour}$$

The Staff Budget for future years of the Agreement is to be calculated on the same basis to that shown for 1992/93 above.

Where:

TOT	Total single time salary excluding allowances for the previous year
LEOC	The total salary and allowances paid to the four most senior staff GM, AGM, DOE, DF
SB ₁	Total Staff Budget for calculation of salary variation factors in this Schedule.
ASN	Average Staff Numbers for the year under review.
AHR	Average Employee Hourly Rate for use in the determination of salary variation factors for the year under review.

APPENDIX B - BASE OPERATING COSTS PER CUSTOMER

The base operating costs for 1992/93 have been adjusted to a common base of system responsibility and accounting practice in accordance with the table detailed below. The table will require updating in accordance with Clause 15 of the Agreement to establish a new base operating cost per customer for each subsequent year of the Agreement.

The following table is shown in 1993/94 dollars.

Item Description	\$,000
Actual Operating Costs ⁽¹⁾	14,236
Subtransmission (66 kV) Adjustment ⁽²⁾	220
Transmission (132 kV) Adjustment ⁽³⁾	103
Marketing ½ work year Adjustment ⁽⁴⁾	(20)
Tariff Incentive Cost ⁽⁶⁾	(22)
Promotional Rebate ⁽⁷⁾	(122)
Public Liability Insurance Premiums ⁽⁸⁾	(358)
Research and Development ⁽⁹⁾	(20)
BASE OPERATING COSTS	14,017
Average Customers ⁽⁵⁾	31,862
BASE OPERATING COSTS PER CUSTOMER 1992/93 (BOCCE)	\$439.93

Notes:

- (1) Actual operating costs excluding depreciation and interest for the 1992/93 year (TOE) in accordance with Appendix D of this Schedule.
- (2) Adjustment for the additional 66 kV subtransmission system responsibility as detailed in the report to Council accompanying the 1993/94 Budget.
- (3) Adjustment for the additional 132 kV transmission system responsibility west of Nyngan.
- (4) The 1992/93 Budget had a ½ work year transferred to ancillary services with the 1993/94 Budget being 1 work year.
- (5) Average number of customers for the 1992/93 year calculated in accordance with Appendix D of this Schedule.
- (6) 1992/93 Actual - Tariff Incentive Cost.

Western Power - Head Office Employees (State) Enterprise Agreement
SCHEDULE A

- (7) 1992/93 Actual - Promotional Rebate Cost.
- (8) 1992/93 Actual - Public Liability Insurance Premium Cost.
- (9) 1992/93 Actual - Research and Development Cost.

APPENDIX C - SAMPLE RESULT 1993/94

The table below details a sample result for the 1993/94 year. The salary variation/\$per week column is based on a weekly base wage of \$517.94.

Measure No	Description	Units	Base Year 1992/93	Sample Result 1993/94	Difference from Base Year	Salary Variation	
						Variation Factor %	Salary Variation \$/week
1	Customer Satisfaction - Domestic	Rank	4	6	- 2	+0.156	+ 0.81
2	Customer Satisfaction - Business	Rank	6	8	- 2	+ 0.111	+ 0.57
3	Sick Leave	hr	48	52	+ 4	- 0.2	- 1.04
4	Lost Time Accidents	hr	6	7	+ 1.0	- 0.05	- 0.26
5	Overhead Serviceability	%	98.2	98.4	+ 0.2	+ 0.052	+ 0.27
6	Operating Costs per customer	\$	439.93	434.93	- 5.00	+ 0.9	+ 4.66
7	GWh Sales per Employee	GWh	2.316	2.356	0.04	+ 0.52	+ 2.69
8	(1) Reliability Index	Min					
9	Net Ancillary Income	\$	\$31,000	\$41,000	+ \$10,000	+ 0.055	+ 0.28
	TOTALS					+ 1.544	+ 7.98

ooo0ooo

(1) Reliability Index not included for the first two years of Agreement.

APPENDIX D - DEFINITIONS

DEFINITIONS

Operating Costs (excluding Depreciation and Interest)

Definition:

$$COCCE = \frac{TOE - D - I - RI - PR - PLIP - RD}{0.5 \times (C_1 + C_2)}$$

Where:

COCCE	Operating Cost per Customer excluding Depreciation, Interest, Tariff Incentives, Promotional Rebates, Public Liability Insurance Premiums and Research and Development.
TOE	Total Operating Expenditure as stated in the Income and Expenditure Statement in accordance with the Code of Accounting Practice (refer pp 2000 - 2001)
D	Depreciation as per the line item in the Income and Expenditure Statement as per the Code of Accounting Practice (refer pp 2000 -2001)
I	Interest Expenses as per the line item in the Income and Expenditure Statement as per the Code of Accounting Practice (refer pp 2000 - 2001)
TI	Tariff Incentives as per the line item in the Income and Expenditure Statement.
PR	Promotional Rebates as per the line item in the Income and Expenditure Statement.
PLIP	Public Liability Insurance Premium as per the line item in the Income and Expenditure Statement.
RD	Research and Development as per the line item in the Income and Expenditure Statement.
C ₁	Total number of Customers at the beginning of the period under review (using "Customers" as defined in the Explanatory Notes)
C ₂	Total number of Customers at the end of the period under review (using "Customers" as defined in the Explanatory Notes)

Units Dollars per customer per annum

Overhead Serviceability Index

Definition: The Weighted Overhead System Serviceability Index (OS_{SIW}) is a calculated Measure based on the following formula:

$$OS_{SIW} = \frac{P_s - \left[OS_{NB} + \left(\frac{OS_T}{OS_I} - 1 \right) \times OS_D \right]}{P_s} \times \frac{100}{1}$$

The result is to be a moving annual average based on 4 x quarterly rolling averages.

Where:

OS_{SIW}	Overhead System <u>Serviceability</u> (Performance) Index - (weighted to take into account <u>inspection rates different to target Inspection Rates</u>)
P_s	Poles (Total) in <u>Service</u> (Count) at end of period
OS_{NB}	Balance sum of Overhead System defects at end of period (<u>New Balance</u>) (see notes below)
	$S_{NB} + T_{NB} + L_{NB}$
OS_T	Sum of <u>Target</u> Number of Supports, Trees and Lines (by pole) to be <u>inspected</u> in period.
	$S_{NB} + T_T + L_T$
OS_I	Sum of the <u>Actual</u> No of Supports, Trees and Lines (by pole) <u>inspected</u> in period.
	$S_I + T_I + L_I$
OS_D	Sum of Support, Tree clearance and Line (and Equipment) risk <u>defects</u> generated in period. (see notes below).
	$S_D + T_D + L_D$
Units	Percentage

Reliability Index

Definition: $RI = \frac{G \times 60}{H}$

Where:

RI	Reliability Index
G	Total number of customer hours interrupted over the 12 month period including planned and unplanned outages of the Distributor's system, excluding all outages due to ECNSW.
H	Total number of customers on an annual basis (Refer to Notes 1 and 2 below)
Units	Minutes per customer per annum.

Notes: (1) Total number of customers on an annual basis to be calculated as follows:

Total at end of year = X

Total at beginning of year = Y

Therefore, total number of
customers on an annual basis = $\frac{X + Y}{2}$

SCHEDULE B

NINE DAY FORTNIGHT AND WORKING HOURS

1 DAYS OF WORK

In accordance with Clause 12 of the Agreement the ordinary hours of work will be equivalent to thirty eight (38) hours per week to be worked on nine week days (Monday to Friday) per fortnight. The seventy six (76) hours of ordinary hours of work credited for the nine day fortnight will be spread to enable thirty eight (38) hours of ordinary hours of work to be credited each week for pay calculation.

2 ROSTERED DAY

- (a) An employee will be entitled to one rostered day per fortnight to be taken on a normal working week day to be mutually agreed to by the employee and their supervisor. Once established the rostered day can only be varied in accordance with Clause 13 of this Agreement or with the supervisor's concurrence.
- (b) An employee's rostered day will be treated as if it were a Saturday.

3 STARTING AND FINISHING TIMES

- a) Head Office Staff shall commence duties between 7.30 am and 8.30 am and cease duties between 4.30 pm and 5.30 pm excepting on Wednesday when duties will cease between 4.15 pm and 5.15 pm. Once established the starting and finishing times of employees can be varied only with the supervisor's concurrence.
- b) Field Staff start and finishing time will be adjusted by mutual agreement to embrace flexible working hours in a manner which will not cause inconvenience to the public.

4 LUNCH BREAK

- a) Head Office Staff shall have a lunch break which shall be taken between 12.00 noon and 2.00 pm. The minimum duration of the lunch break shall be thirty minutes.
- b) Field Staff shall have a lunch break of thirty minutes duration.

5 PROVISION OF LEAVE

- a) All Annual, Sick, Long Service Leave and Accrued Leave will be credited to the employees account on the basis of hours. Any leave taken by an employee will be debited from the employees account on the basis of hours that would have normally been worked on that day had the employee not been on leave.

- b) If a Public Holiday occurs on a normal rostered day, the employee who would normally be rostered will be re-rostered for an alternative day off in lieu. Where an alternative day cannot be rostered the employee will be credited with one day's Accrued Leave in accordance with (a) above.
- c) Roster days credited to accrued leave in accordance with (a) above will normally be taken at a mutually agreed time as a days leave with pay. In the event that the employer requests that the accrued rostered days be paid, such payout will be at overtime rates in accordance with the Award and (a) above.

6 HIGHER DUTIES CLAIMS

- a) An employee who is required to carry out higher grade relief of another employee due to the employees absence on a "rostered day" shall not be entitled to payment at such higher grade.

Where an employee is directed to carry out higher grade relief duties the hours worked shall be paid for in accordance with current agreement adjusted rates as shown in Clause 14 and any subsequent Performance Measure increases.

If a rostered day off occurs within a period of absence for Annual Leave or Sick Leave, an employee, acting as relief employee, shall not receive higher grade pay for the rostered day even though the employee is receiving payment for the other days of absence, except where the period of higher grade duty exceeds three days.

- b) An employee who is carrying out higher grade relief may (at the discretion of their immediate supervisor) take their "rostered day off" as originally rostered or may be required by their immediate supervisor to assume the working roster of the employee being relieved.

7 WORKING HOURS

- (a) Head Office Staff:

The hours of work shall be eight hours thirty minutes on Mondays, Tuesdays, Thursdays and Fridays and eight hours fifteen minutes on Wednesdays.

- (b) Field Staff:

A trial flexible working arrangement will be conducted with either Option 5 plan Appendix A or an alternate proposal Appendix B commencing 21 September 1993 and terminating on 22 March 1994. The parties mutually agree to a meeting of the Consultative Committee to review flexible working arrangements by 30 April 1994.

oooOooo

APPENDIX A

OPTION 5 : • All 9 Day Fornight Periods
• Hours adjusted by Short/Long Days

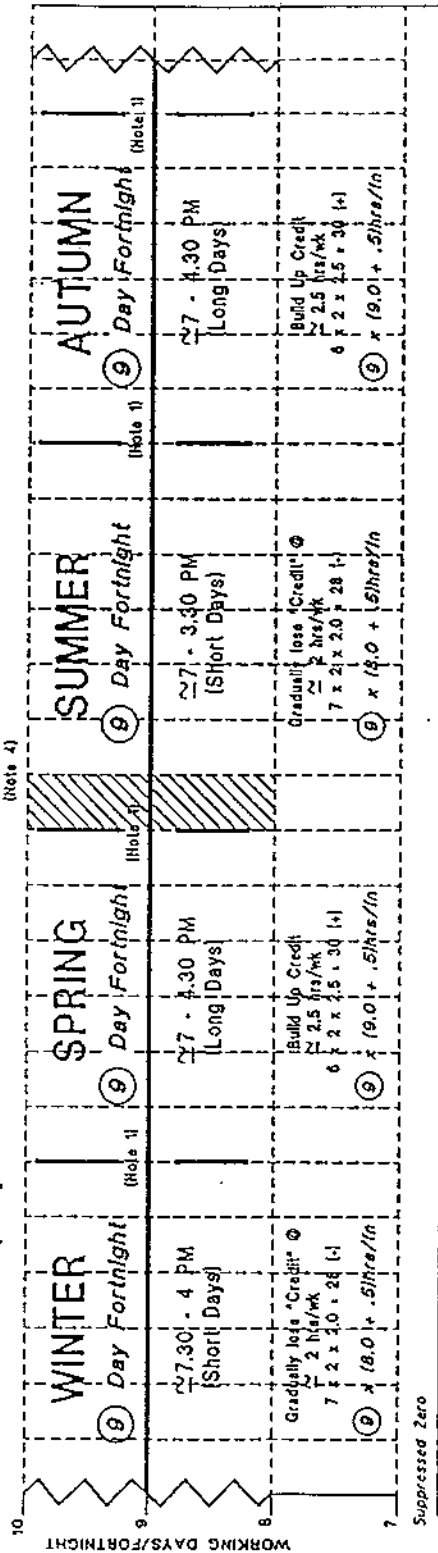

Main Features (Advantages)

- Less change in hours. (More balanced)
- May assist in development of public image through promotion of flexible hours.
- 24 Wks p.a. "Slightly Long Days" (High productivity days)
- Balances Annually
- No 4 day weeks.

Disadvantages

- No 4 day weeks.
- Annual balance means for new staff starting in Winter or Summer, they may need to be "short" payed (according to hours worked) so there is no problem if they leave before balancing hours in Spring or Autumn.

- Notes.**
1. Changeover Dates negotiable.
 2. Startling & Stopping times negotiable.
 3. Some minor adjustment in times required to balance year.
 4. G.M. wants fortnight 13 (Christmas) as a 10 Day fortnight.

Bottom Scale
Shows as Week ending Tuesday (Date shown)

FORM 1007 2/1/2001			

APPENDIX B

FLEXIBLE WORKING ARRANGEMENTS

FIELD STAFF ALTERNATIVE PROPOSAL

- 1 Normal 8½ hour (Monday to Thursday) and 8¼ hour (Friday) working days will apply for pay purposes.
- 2 With prior mutual agreement the ordinary hours of work, starting and finishing time, may be varied within the Award spread of hours.
- 3 With prior mutual agreement ordinary hours of work may be worked in a day or period with the additional time credited to flexible hours.
- 4 With prior mutual agreement the ordinary hours of work for a day or period may be reduced with the credited flexible hours being used to normalise pay.
- 5 At the end of a financial year the flexible hours balance for each employee must be reduced to nominally zero unless otherwise agreed to in writing.
- 6 A progressive total of flexible hours will be printed on pay advices under the heading "Flexible Hours".
- 7 The additional ordinary hours of work as outlined above will not be used as a means of avoiding payment for genuine overtime requirements.
- 8 To meet customer service requirements, each depot must have staff available in ordinary working hours between the core time of 7.30 am and 4.00 pm each working day unless otherwise approved by the General Manager.

SCHEDULE C

LIST OF HEAD OFFICE POSITIONS

Head Office staff and positions referred to in Clause 26 of the Agreement. Sixty Nine (69) positions as per the establishment chart issued 2.6.93.

General Manager	P Halyburton
Assistant General Manager	G Wood
Director of Corporate Services	J Bate
Human Resources Manager	G McCready
Assistant General Manager's Secretary	M Bradley
Information Services Manager	A Evans
Analyst/Programmer	R Allan
Analyst/Programmer	A Pierpoint
Analyst/Programmer	D Rootes
Computer Maintenance	W Hangan
Administrative Assistant	G Fogarty
Services	J Meek
Services	L Stonestreet
Stores Material	P Frew
Records	L Greenwood
Records	D Carney
Switchboard	M Sheridan/A Harmon
Corporate Services Secretariat	J O'Donoghoe/K Ryan
Director of Finance	P Walsh
Financial Accountant	B Bray
Pay Officer	J Hickey
Pay Assistant	L Hangan
Expenditure Officer	T Holmes
Expenditure Clerk	A Pilcher
Expenditure Clerk	A Bolch
Input Stores Clerk	S Hawkins
Revenue Accountant	D Sell
Revenue Officer	C Kelly
Revenue Clerk	J Gilbert
Revenue Clerk	A Dooley/K Pillon
Cashiers	S Ridge/P Pease
Relief Clerk	K Broad
Final Accounts Clerk	P Kinsley
Billing Officer	P Cornish
Billing Clerk	V Barrow
Billing Clerk	H Crogan
Billing Clerk	D Powyer
Billing Clerk	T Smith
Billing Clerk	Vacancy
Budget Officer	C Shepherd
General Manager's Secretary	F Wells
Projects & Marketing Manager	W Sims
Customer Advisory Officer	M Barrow

Western Power - Head Office Employees (State) Enterprise Agreement
SCHEDULE C

Customer Advisory Officer	G Bateup
Customer Advisory Clerk	K Mills
Customer Liaison Officer	H Jansen
Projects & Contracts Officer	R Cowan
Director of Engineering	R Barrett
Executive Engineer	Vacant
Development Manager	K Rugg
Distribution Design Engineer	L Zulli
Survey Officer	W Jones
Survey Assistant	M Jacobs
Distribution Design Officer	W Munro
Design Officer Distribution	Vacant (N Chapman Temp)
Subtransmission Design Officer	B Glawson
Design Officer Subtransmission	C McPhail
